Evaluating Online Information Class Activity

1. Using a topic you would like to explore, and using the evaluating online information criteria, search for what you think is a reliable resource.
   What is your source?

2. Once you have your source answer these two questions:
   a. Why is your resource reliable and authoritative?

   b. Does your source have any questionable qualities?

3. Share with a partner your answers to the above questions.
   Does your partner have any suggestions?
